

Priorities of the European Federation for Animal Health and Sanitary Security (FESASS)

Didier DELMOTTE
Chairman of FESASS

FESASS : Animal Health together

- FESASS gathers and represents farmers and their animal health organisations
- FESASS is also :
 - 60 millions bovines
 - 100 millions pigs
 - 57 millions goats and sheep
- Our core values :

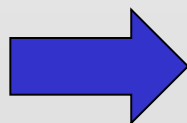

- The farmer : a key player and a responsible operator
- The collective action is success factor
- Partnership = an animal health sector

To promote prevention

- Definition and promotion of new Animal Health fundamental principle
- Incorporated into the future Animal Health Law and secondary legislation
- A risk-awareness culture

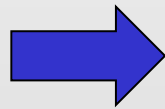

To prepare and to secure the future

Continue improving health status

- Public health, economic and trade interest
- To overcome the technical problems
- Livestock diseases

Concrete actions examples:

- BVD-Day (Munich, December 6th 2012)
- Tuberculosis workshop (Brussels, spring 2013)

Vigilance and adaptation to animal health risks

In the face of threats

- Vigilance
- Anticipation
- Investigation
- Adaptation

Concrete actions

- Working group on pigs
- Technical support
- Training programs

Conclusion

***LET'S BUILD TOGETHER
ANIMAL HEALTH EUROPE***
